

ACCESS, PRE-REGISTRATION AND ENROLMENT IN UNIVERSITY MASTER'S DEGREE COURSES

2024/25

ENTRY REQUIREMENTS

In order to be admitted into an official master's degree course, it is necessary to meet one of the following requirements:

- Hold an official Spanish university degree.
- Hold a degree awarded by an institution of higher education in another member state of the European Higher Education Area, which grants access to master's degree courses in that country.
- Hold a degree from an education system outside the European Higher Education Area that is recognised or declared by the Ministry of Science, Innovation and Universities as being equivalent to an official Spanish university degree.
- Hold a degree from an educational system outside the European Higher Education Area, which does not require accreditation, determined through prior assessment of the student's Transcript of Records. By means of this procedure the University of Salamanca will verify that the level of studies corresponding to the previous degree is equivalent to that of the corresponding official Spanish university entrance qualifications, and that it entitles the holder to access master's degree courses in the issuing country.

Entry through the latter route will not imply, in any case, the accreditation of the previous degree held by the interested party or its equivalency. In addition, the degree will not be recognized for purposes other than that of studying for a master's degree.

To access to the master's degree in **General Health Psychology**, find information on web page: [MÁSTER UNIVERSITARIO EN PSICOLOGÍA GENERAL SANITARIA](#).

STUDENTS WITH DISABILITIES

In order to comply with the provisions of Art. 15.3 of Royal Decree 822/2021, of 28 September, which establishes the organisation of university education and the procedure for quality assurance, 5% of the total number of places will be reserved for students starting official master studies with an accredited disability of 33% or more. This also will include students with permanent educational support needs associated with personal circumstances of disability who in their previous studies required resources and support for their complete educational development. At least one place will be guaranteed without rounding up.

ASSESSMENT OF THE FOREIGN TRANSCRIPT OF RECORDS

Assessment of the Transcript of Records ensuing from previous studies is an essential entry requisite for students who are holders of degrees originating from educational systems outside the European Higher Education Area and whose degrees have not been accredited. This process

must be carried out prior to and independently of the rest of the procedures, which will be conditioned to the successful outcome of this assessment.

The period for presenting an application is open throughout the year. It is advisable to start this preliminary procedure as early as possible in order to meet the deadlines associated with the rest of the other procedures.

The application should include the following documentation:

- [Application form](#)
- Proof of payment of the administrative fees for evaluating the Transcript of Records as a requisite for accessing the master's degree. This requirement is necessary for initiating this process.
- Copy of the person's identity card or passport.
- Legalised copy of the degree or equivalent academic qualification.
- Original certificate or copy, duly legalised, of the subjects taken in the degree or equivalent academic level, with an explicit description of their name, duration and final grade.
- Original certificate or copy, duly legalised, proving the degree in question entitles the holder, in the country of issue, access to a master's degree course

In no case shall simple copies of documents be accepted unless the Apostille can be verified electronically.

Legalisation is an administrative procedure by which a foreign public document is made valid, verifying the authenticity of the signature affixed to a document and the capacity in which the authority signing the document has acted. Documents may be legalised through diplomatic channels or by obtaining an apostille.

An official translation into Spanish of all the documentation provided must be attached.

The documentation must be submitted in full. The application will not be processed if it is incomplete or does not meet the legalisation requirements ([Link: Information on legalisation procedures](#)). Otherwise, the application will be deemed not to have been submitted.

PRE-REGISTRATION

The once-only and compulsory deadline for submission: 4 April to 19 July 2024.

Students wishing to undertake master degree studies must pre-register via the online platform (*button below*) within the established deadline, even if they do not meet the requirements. In this case, they must submit a declaration of responsibility (according to the model) pledging to meet the requirements before the start of the course.

In the pre-enrolment process, students will select, in order of preference, a maximum of three degrees. To this end, the specialisations of some masters will be considered in the same way as the degrees.

At the end of this process, it will be possible to view the information by clicking on the "view pre-registration" button. In addition, the applicant will receive an email with proof of registration in a PDF.

From 19 July until 23 September, interested parties may modify their pre-enrolment information, except for the order of degrees/specialisations applied for, which will require prior approval from the Secretary's Office of the faculty/school.

DOCUMENTATION/DECLARATION OF RESPONSIBILITY

Through the pre-registration platform, the documentation accrediting the access requirements must be attached together with the documentation specifically required by the master's degree to which the applicant wishes to gain access.

The Academic Committees **may determine** that only **the documentation submitted before the pre-registration deadline** is taken into account for admission, that is, until July 19. If you find yourself in this situation, you should consult the Faculty responsible for the programme.

An official translation into Spanish of all the documentation provided must be attached.

In the event that the applicant does not provide the required documentation, he/she must complete the [DECLARATION OF RESPONSIBILITY](#) form, in accordance with the established model, obliging the student to provide the documentation required for access and admission before 30 September 2024.

DOCUMENT CHECKING, NON-ADMISSION AND REGISTRATION CANCELLATION

The admission and enrolment of new students does not presuppose the recognition of the requirements stipulated in the procedure, the enrolment being conditional upon the verification of these requirements, the verification of the documentation presented by the student and the payment of the enrolment fee in accordance with the deadlines established by the Governing Council of the University of Salamanca.
